

☆ **2000 Update**

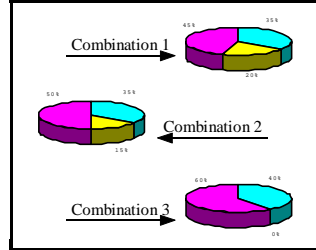

Our Triple (3) Manager Combination results for the calendar year 2000 show dramatic positive returns during a Market that has seen the greatest volatility in a recent 10 year history.

Of importance as well, was the operational proof of the validity of the expected returns during *falling* Markets.

* That is to say that, for every **1% S&P 500 Index loss** during 2000, Combination 1, for example, experienced a **gain of 2.50%**.

☆ **AAC's CLAIMER**

Our strategies/methodologies give us great professional satisfaction in the ample evidence of not only preserving capital in the worst Market year in ten years, but in adding to wealth to the degree of approximately 25 %.

We hope that your investments in the year 2001 will also experience this magnitude of success !
