

(The A.A.R.T. of what we do !)

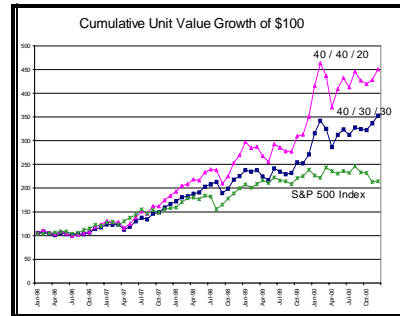

www.assetalloc.com

==== Announcing our new, *interactive Performex®* System Website ====

- Now **you** can change the ratios of www.assetalloc.com Manager Combinations in each analytical Chart to improve rising and falling Market performance.

→
Better falling Market performance at the cost of lower, longer-term returns or vice-versa
←

- Now **you** can alter risk, risk adjusted returns, the compounding factor, rolling 12-month returns and other performance attribute Charts to help you understand important risk/return trade-offs.
- **You** can also change the starting and ending dates to show a variety of Market phases.
- In a few clicks and observations, portfolios meeting **your** criteria can be constructed.

Access this Performex® methodology and try it out with funds of *your* choice.
